INSTRUCTIONS: Type http://www.qc.cuny.edu/ into your browser and click the Schedule of Classes in the Quicklinks (top left of the page) to view available courses for the Queens College 2020 Fall Term. Choose the Course Subject from the dropdown menu then click “SEARCH”

From the dropdown menus, make sure to select:

<thead>
<tr>
<th>Institution</th>
<th>Queens College</th>
</tr>

<tbody>
<tr>
<td>Term</td>
<td>2020 Fall Term</td>
</tr>
<tr>
<td>Course Career</td>
<td>Undergraduate</td>

</tbody>
</table>

- Write down the classes that you are interested in taking on the back of this sheet, following the example provided.
- Make sure that your choices are in order of preference.
- You are free to choose courses from various academic departments such as Sociology, Anthropology, Math, History, etc. Scheduling the courses into your high school program may prevent you from getting your top choices, so please select up to five choices.
- **IMPORTANT:** When looking at courses, please make sure to click the code and/or section for the class to review the course description, including the number of credits (listed as “Units”), any “Enrollment Requirements”, possible Material Fees, and Textbook listings.
- Please take the time to seriously consider your interests and commitment to registering for a particular course. If you do not have any after-school obligations (work, team, club, babysitting, etc.), you are encouraged to consider taking a course that meets after school. This will allow for a wider variety of classes to choose from and thus give you a better chance of getting a course you would like to take.
- **PLEASE NOTE:** Your Queens College elective will be chosen based on space in your high school schedule and availability at the college. You are NOT guaranteed your top choices; courses such as Art Studio and Laboratory Science classes are difficult to register for, as Queens College upperclassmen register early, seats are limited, and these classes run for four hours a day.
